# UNMISTAKABLE STYLE, UNCOMPROMISING QUALITY

Since 1933, Walpole Outdoors has created elegant, premium outdoor products to grace the most distinctive homes and businesses throughout New England and beyond. Walpole design collections offer a full range of traditional, contemporary, and historical styles. We also specialize in collaborating with designers and architects, and can even tailor products to the sketches and visions of our customers. Walpole products are proudly made in the USA, handcrafted at our state-of-the-art Maine facilities, and shipped directly to jobsites nationwide.

# TIMELESS METHODS, INNOVATIVE MATERIAL

Alongside the many exotic hardwoods and cedar products we create and install, Walpole Outdoors is also the #1 manufacturer of structures using AZEK solid cellular PVC. This synthetic material is produced in an environmentally friendly process, offering the look and feel of genuine hardwood while resisting corrosion, termites, and moisture. Milling, carving, carpenter-finishing, and factory-painting of our AZEK products is handled with the same craftsmanship as our hardwoods. Walpole artisans create soaring pergolas, graceful railings, and sturdy fencing that remain strong and beautiful for decades.

# DEFINE YOUR LANDSCAPE

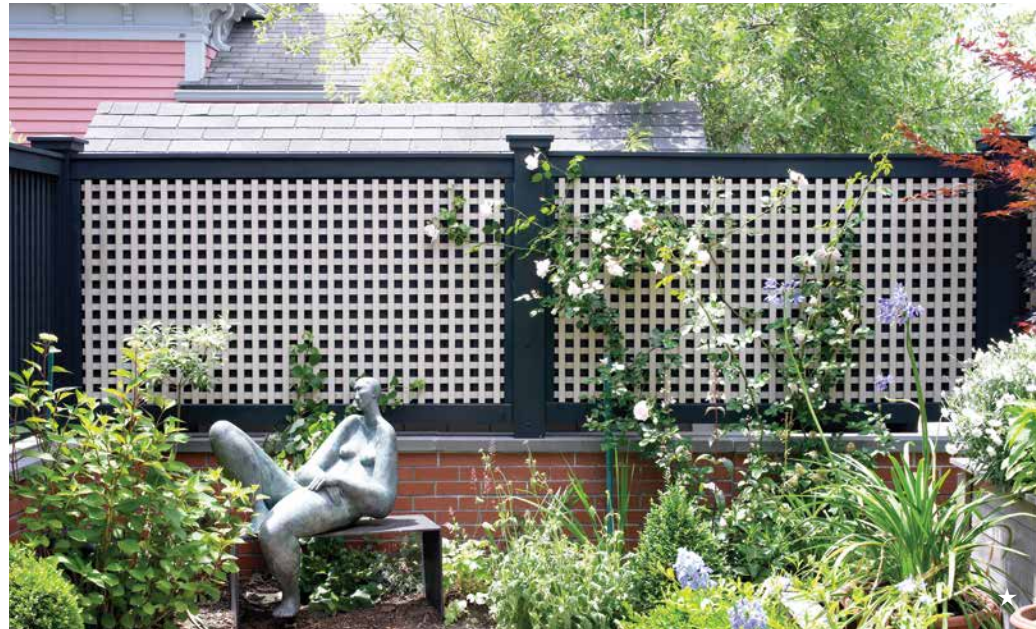

---

How will you bring your ideal outdoor home to life? A great way to begin is with the big picture. Think about how you will enclose and enhance your property, what the main areas within it will be, and how you will create both division and flow between them.

Make a dramatic transition with a graceful, gated arbor, give a garden area the added protection and ambiance of a customized enclosure, and add privacy to it all with a handsome perimeter fence. Your outdoor home and the rooms within it will take shape, ready for you to enjoy and share.
